

⚡ TOP UNIVERSITY & FUTURE TECH CIRCUIT

5D4N Future Tech, Design & Top University Immersion

A premier academic circuit for Engineering, Computer Science, Architecture, and Design students. Experience world-class research at NUS (#8 World) and NTU (#15 World), hands-on MIT FabLab 3D additive manufacturing at SUTD, and Southeast Asia's startup engine BLOCK71.

TARGET COHORT
College & Engineering

DURATION
5 Days / 4 Nights

FACULTY RATIO
1:10 Free Faculty Slots

STARTING FROM
SGD ~725 / INR ₹46.0K

● CORE ACADEMIC FOCUS & LABORATORY MODULES

🎓 ELITE CAMPUS RESEARCH & FACULTY BRIEFINGS

- ✓ NUS University Town (UTown), Faculty of Computing & Engineering research labs.
- ✓ NTU The Hive smart eco-campus designed by Thomas Heatherwick & ADM green architecture.
- ✓ Direct briefings on competitive postgraduate admissions, research grants, and GRE/GMAT pathways.

🚀 BLOCK71 DEEP-TECH STARTUP INCUBATION

- ✓ Exclusive immersion inside BLOCK71—Southeast Asia's Silicon Valley startup ecosystem.
- ✓ Interaction with founder teams in artificial intelligence, robotics, biotech, and Web3.
- ✓ Deconstruct the transition of university research patents into commercial tech unicorns.

🏢 MIT-SUTD FABLAB 3D PROTOTYPING SPRINT

- ✓ Hands-on SLA 3D printing, laser cutting, and rapid CAD prototyping workshop.
- ✓ Design Thinking case study solving real-world smart city mobility challenges.
- ✓ Review of multi-disciplinary engineering systems (ESD) and product development (EPD).

🌐 SMART NATION URBAN ENGINEERING & NEWATER

- ✓ URA 3D Masterplan Gallery analyzing digital twins and autonomous vehicle testbeds.
- ✓ NEWater Plant: Industrial reverse osmosis and microfiltration membrane technology.
- ✓ CleanTech One & Energy Research Institute (ERI@N) solar telemetry analysis.

🛡️ PROFESSIONAL ACADEMIC GROUND SUPPORT

24/7 Dedicated Tour Director • Official Certificate of Completion for Academic Portfolios • SGD 50,000 Medical Evacuation Cover • Custom Dietary Menus.

100% Accredited DMC

DAY 01 Arrival & Singapore Smart Nation Urban Planning Walk

Smart City IoT

MORNING

Touchdown at Singapore Changi Airport. Private AC coach transfer to student hotel check-in.

AFTERNOON

URA Singapore City Gallery: 3D scale model, digital masterplan, and autonomous vehicle telemetry.

EVENING

Marina Bay Financial District walk studying smart transit sensors and automated cooling grids.

LEARNING OUTCOME: High-density urban architecture, IoT digital infrastructure, and smart city governance.

DAY 02 NUS Kent Ridge Immersion & BLOCK71 Deep-Tech Ecosystem

NUS Top-10 World & AI

MORNING

NUS Kent Ridge: Tour UTown, Yale-NUS library, and faculty of computing/engineering AI labs.

AFTERNOON

NUS Enterprise BLOCK71: Meet startup founders and attend venture scaling & patent briefings.

EVENING

Interactive networking dinner with current international university scholars and researchers.

LEARNING OUTCOME: Direct insight into elite university admissions, commercial IP tech scaling, and venture funding.

DAY 03 SUTD MIT-Design FabLab Prototyping & NEWater Reclamation

Design Thinking & Water Tech

MORNING

SUTD (Singapore University of Technology & Design): SLA 3D printing & FabLab prototyping sprint.

AFTERNOON

NEWater Plant: Industrial microfiltration and reverse osmosis membrane purification walkthrough.

EVENING

Dinner at Lau Pa Sat Satay Street followed by Helix Bridge structural engineering observation.

LEARNING OUTCOME: Apply human-centric design thinking sprint and analyze advanced circular water purification.

DAY 04 NTU "The Hive" Green Campus & CleanTech Park

Green Tech & Aerospace

MORNING

NTU Campus: Thomas Heatherwick's "The Hive" flipped classrooms, ADM green roof & satellite labs.

AFTERNOON

Jurong CleanTech Park & Singapore Science Centre Future AI robotics wing.

EVENING

Clarke Quay river cruise studying historic trading quays and Singapore River cleanup ecology.

LEARNING OUTCOME: Evaluate green building standards, frontier aerospace satellite labs, and AI robotics.

DAY 05 Academic Capstone Debrief, Certification & Departure

Synthesis & Flight

MORNING

Student syndicate case presentations on Singapore Smart Nation frameworks. Certificate ceremony.

AFTERNOON

Free time at Jewel Changi Canopy Park / airport check-in assistance.

EVENING

Departure flight to home country with academic attendance credentials.

LEARNING OUTCOME: Consolidate comparative technical frameworks for academic credit and career portfolios.

● INVESTMENT, INCLUSIONS & PRACTICAL SUGGESTIONS

ACCOMMODATION CATEGORY	ROOM CONFIGURATION	PER STUDENT (SGD)	APPROX. PER STUDENT (INR)	FACULTY (1:10)
Student Hub / Youth Hostel	Quad-Share Ensuite	SGD ~725	₹46,030	100% FREE
3-Star Hotel (Lavender/Bugis)	Twin / Triple Share	SGD ~870	₹55,245	100% FREE
4-Star Premium (Novotel/Orchard)	Executive Twin Share	SGD ~1,045	₹66,350	100% FREE

Laptops & CAD Tools

Bring personal laptops/tablets for the SUTD FabLab design sprint and case study workshops.

Smart-Casual Dress Code

Collar shirts / trousers recommended for university faculty briefings and BLOCK71 founder meetings.

Academic Portfolios

Take notes and photos for college credit reports, capstone presentations, and LinkedIn credentials.
